

Now Hiring!

Argus Fire is one of the leading, privately owned fire protection and detection companies in the UK.

We are currently looking to recruit a **Mechanical Design Engineer** within our **Special Risks Department**

Working as a member of an experienced and established Project and Design Team, the successful candidate would have the opportunity to work on a wide range of interesting and often unique projects across the UK and for a wide range of professional UK and International clients.

Our Special Risk Team successfully delivers all types of mechanical water based system (encompassing fire water supplies and infrastructure, water spray deluge, sprinkler, foam, and water cannon systems) to a multitude of BS, EN and NFPA standards, as well as Inert Gas Fire Suppression Systems.

This role provides candidates with a great opportunity to grow their knowledge and competence in the many varied aspects of the special risk fire protection industry in a friendly and co-operative environment.

Should you be interested, please send your CV and any additional information to: Rachel Burford-Turner, Argus Fire Protection Company, Hendglade House, 46 New Road, Stourbridge, DY8 1PA or by email to r.burfordturner@argusfire.co.uk
